Purely Personal

As regards habits of living, that, of course, is purely a personal matter with each of us.

But some folks go on for years wondering what causes their nervousness, heart flutter, biliousness, headache and various other ailments.

A frequent, though often unsuspected cause, is tea or coffee drinking. This, because both tea and coffee contain a powerful, habit-forming drug, caffeine, (from 1½ to 3 grains to the average cup) which, taken, regularly, finally drifts many into ill health.

Of course, it's your own affair. If you can go on drinking tea or coffee and feel no evil effects, why—bless your heart, keep it up—but there are hundreds of thousands who have quit tea and coffee

They know from the better health that follows, that freedom from the drug, caffeing and coffee makes life brighter and happier.

Postum is made of wheat and a bit of wholesome molasses—has a rich, snappy flavor and some genuine nourishment. It contains no caffeine or other harmful element.

Postum comes in two forms Postum Cereal requires boiling. Instant Postum is soluble. A level teaspoonful in a cup of boiling water makes a delicious drink—instantly. Cost per cup is about the same for both kinds.

Personally, the change to Postum is a little thing to do. The benefit is great.

Allied Submarines Have Played Great Havoc With Turkish Fleet

London, Dec. 13—A dispatch to the Exchange Telegraph Co. from Athens says that advices received from the Greek capital from Constantinople are to the effect that the Turkish transport Rechid Pasha, a vessel of 5,000 tons, has been sunk near Sylvria, in the Sea of Marmora, by a French submarine. The correspondent adds that according to the same report, Turkey now possesses but seven transports, the remainder having been sunk by the entente allied submarines.

TUESDAY, DECEMBER 14, 1915. The Tammany state looks as

Apparently the voters agree pretty generally with Judge Ives' opinion.

There is, it seems, at least one "western city" in which the baw-dy house is not recognized as a necessity.

The verdict is for continued conomy, and the management of ivic business as though it were usiness.

Heaton, McMilian and Pierson should be interested in the returns. They indicate that things in this vicinity are not what they used to be.

It is surmised that the tax-pay-ers do NOT favor the aldermen paying themselves salaries for playing polities with business the commissioners are paid to manage.

Voters of German descent evidently declined the invitation to line themselves up as applicants for a return to conditions that made Edmonton odorous.

Pon Yin and his white compatriots will have to look elsewhere than to the people of Edmonton for approval of the notion that a newspaper should be gagged with libel suits.

If Tammany counted on being elected by the women's votes it will have to learn to count again. Edmonton women cherish other ideals than the "artistries of joy" which flourished under its regime.

There is, in the small vote poll-l, evidence that a good many rhere is, in the small vote pointed, evidence that a good many tenants appreciate the unfairness of voting without paying taxes. It is not from the fair minded tenant, but from the cheap john politician, that the objection to a sane taxa-

It is a cinch that the Tanumany erowd all voted. As the total vote was ridiculously small the returns serve to show that the lawabid-ing, decent-minded people of the city are in the over-whelming ran-jority. That being the case it being the their own fault if they are ever again subjected to the domination of lawlessuess.

Several thousand people should Savaryl thousand people should have voted yeslerday who neglect-ed to do so. As it turned out their negligence did not elect the gangsters. But it might have done so. The city is entitled to the collective judgment of all the voters when a new board of direction to be elected. Civic duty should on such occasions take precedence over personal convenience.

The Government have evidently decided that they might better stand fire for not presecuting the robbers of the war chest than run chances of the party damage that might be done if those thieves were brought into court for seru-tiny. In which case the ministers have themselves to blaue if the public surmise that the half has never yet beet noted about the pil-sure themselves to be a server of the pilot surmise that the half has never yet beet noted about the pil-ting that the pilot surmise that the half has the rest would involve some par-ties when the Government want to protect.

Mr. Roosevelt has his peculiari-ties, but willingness to let civiliza-tion be struck down with a club is not one of them.

Respectfully suggested that if Washington does not know what to do with Boy-Ed and Von Papen it might send them up this way.

The conclusion of the matter up to date is that Britain has consented to pay for the cargo of pork, and that Germany has neither repudiated the sinking of Lustiania nor agred to pay for the singularity. slaughtered.

The Government having seized fifteen million bushels of wheat was evidently the cause, or the excuse, of a forty cent per barrel boost in the price of flour. Having released, the wheat, the Government should now seize the forty cents.

Reinforcements are needed in Mesopotamia, as in Serbia, and clsewhere. Every battalion allowed to go to the front from Can-ada will help to strengthen the fighting line wherever it needs strengthening, by permitting the diversion of troops otherwise needed in France and Flanders.

Commissioner Davidson has started business again, and the first day brought out another string of horse deals, this time in Ontario. Pretty soon the impression will be spreading that any locality which cannot claim the distinction of a war scandal is a locality in which the dealings of the additional than the contraction of the contract of the cont

subjected to scratiny.

United States officials claim
f that German agents have been
a spending millions trying to cause
of States, so that the United
States, so that the United
States factories could no longer
supply munitions to the Allies.
Nobody will be surprised at the
news—except Von Bernstorff. It
would have been surprising if
a way of furthering its world conquest scheme.

quest scheme.

The Ottawa prices bureau has sent out a telegraphic forecast that the Government in answer to representations from the farming interest is likely to haul grain on the National Transcontinental at rates lower than the railway companies are willing to charge. If there is anything in this, what becomes of the ten-year-old contention that the National Transcontinum tha

owned roads?

President Wilson's message is another testimony of his unchanging fidelity to the Democratic documents of the second of the seco
